

Scientific Program

Day 1: Thursday, 13th April 2017

08:00 - 09:00 Registration and Welcome Coffee
09:00 - 09:10 Opening Remarks

09:10 - 10:10 Session I: Focus on Complex Valve Decisions, Beyond the Guidelines

09:10 - 09:30 45 y/o Woman with Severe Mitral Regurgitation: Time for surgery?
09:30 - 09:50 Patient with Pulmonary Edema Secondary to Acute Mitral Regurgitation, Stroke and Low Platelet Count
09:50 - 10:10 Patient with possible Prosthetic Stenosis?

10:10 - 10:40 Coffee Break

10:40 - 12:00 Session II: Controversies and Challenges in the Management of Cardiovascular Disease: Cardiomyopathies: All Hearts are not broken equally (Amyloid, Sarcoid and Storage Diseases)

10:40 - 11:00 72 y/o Male with a Referral dx of HCM Non Obstructive
11:00 - 11:20 67 y/o with Systolic Murmur and Ventricular Hypertrophy
11:20 - 11:40 52 y/o Male Patient with Complete Heart Block
11:40 - 12:00 21 y/o Female with Syncope

12:00 - 12:45 Satellite Symposium

12:45 - 13:30 Lunch

13:30 - 14:50 Session III : Controversies & Challenges in the Management of Cardiovascular Diseases: Focus on Atrial Fibrillation

13:30 - 13:50 Brugada Syndrome and a FIB on Amiodrone during Pregnancy.
13:50 - 14:10 45 y/o Male with HOcm and Atrial Fibrillation, s/p Septal Myectomy.
14:10 - 14:30 58 y/o Female with ICH and Symptomatic Persistent AF
14:30 - 14:50 80 y/o Male CHADSVASC 3 with New Onset Symptomatic AF.

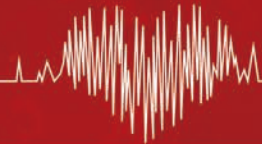

14:50 - 15:35 Satellite Symposium

15:35 - 15:50 Coffee Break

15:50 - 17:10 Session IV : Controversies and Challenges in the Management of Cardiovascular Disease: Focus on Aorta and Congenital Heart Disease

15:50 - 16:10 19 y/o post-operative Complex Coarctation of Aorta with Complication
16:10 - 16:30 44 y/o patient with Dilated Aortic Root
16:30 - 16:50 23 y/o women with BAV and Stenosis
16:50 - 17:10 63 y/o patient with ASD and HTN

17:10 - 18:00 Session V: ECG Session with Clinical Correlations

Scientific Program

Day 2: Friday, 14th April 2017

08:00 - 08:40 Registration and Welcome Coffee

08:40 - 10:00 **Session VI: Controversies and Challenges in the Management of Cardiovascular Diseases: Focus CAD**

08:40 - 09:00 75 y/o Female with s/p cABG with EF of 40%, DM, HTN, Hyperlipidemia. How do we maximally Lower his risk? (DM- new medications with CV mortality benefit, HTN control etc).

09:00 - 09:20 A patient with Coronary Disease and Severe AS at High Risk for Surgery.

09:20 - 09:40 A TAVR patient who Develops Chest Pain

09:40 - 10:00 A patient with Left main Coronary Disease – Surgery vs. PCI

10:00 - 10:20 **Coffee Break**

10:20 - 11:00 **Session VII: Controversies and Challenges in the Management of Cardiovascular Diseases: Focus on Prevention**

10:20 - 10:40 42 y/o female with CAD, HTN, DM who is 24 weeks pregnant presents with HTN (HTN in pregnancy)

10:40 - 11:00 32 y/o male with CAD s/p PCI presents with LDL 182 on Crestor 40mg a day CK 380

11:00 - 11:45 **Satellite Symposium**

11:45 - 13:30 **Lunch & Friday Prayer**

13:30 - 14:30 **Session VIII: Challenges in Management of Cardiovascular Diseases: Focus on Heart Failure**

13:30 - 13:50 Hemochromatosis presenting with Heart Failure

13:50 - 14:10 Sarcoidosis with VT and HF

14:10 - 14:30 Severe RHF in Pulmonary Hypertension

14:30 - 15:15 **Satellite Symposium**

15:15 - 15:30 **Coffee Break**

15:30 - 16:50 **Session IX: Controversies & Challenges in the Management of Cardiovascular Diseases: Focus on Percutaneous Interventions: TAVI, Mitral Valve, LAA Closure**

15:30 - 15:50 60 y/o with Challenging Valve Replacement in TAVR(Thomas Bartel from CCAD)

15:50 - 16:10 3 patients who are not doing well 1 year after TAVR

16:10 - 16:30 To clip or not to clip: Severe MR

16:30 - 16:50 Unusual Appendage: Can Watchman Help?

16:50 - 17:50 **Session X: Focus on ECG Interpretation: Acute Presentations**
