**ANNUAL CASE-BASED  
APPROACH TO  
CONTROVERSIES IN  
CARDIOVASCULAR  
DISEASES**

**7 & 8 February 2026**

**The Creekside Hotel, Dubai, UAE**

## MESSAGE FROM THE COMMITTEE

The successful conclusion of the **16<sup>th</sup> Annual Case-Based Approach to Controversies in Cardiovascular Diseases** reflects the strength of collaboration, academic excellence, and enduring partnerships that continue to define this distinguished scientific platform.

The Organizing and Scientific Committees express their sincere appreciation to Dubai Health Authority for its invaluable and unconditional support, which significantly enhanced the institutional and scientific impact of the conference.

We extend our gratitude to the Scientific Committee for delivering a comprehensive and current two-day program, and to our esteemed faculty for enriching the learning experience through their expertise and knowledge sharing. We also thank all participants for their active engagement, which contributed greatly to the success of the event, and acknowledge our sponsors whose steadfast support remains fundamental to the continued growth of this conference.

We look forward to welcoming our colleagues and partners to the **17<sup>th</sup> Annual Case-Based Approach to Controversies in Cardiovascular Diseases** on **20–21 March 2027**, as we continue to uphold and advance this tradition of scientific excellence.

# CONFERENCE HIGHLIGHTS

**24  
countries**

The conference was held on 7 & 8 February, 2026 and concluded with the participation from 24 countries and a total of 300 attendees.

**32  
faculty members**

There were a total of 32 faculty members, including the Conference Speakers, Scientific Committee, Symposium Speakers and Chairpersons from the USA, UK, Kuwait, Oman, Lebanon and the UAE who contributed to this educational conference.

**8  
sessions**

The two-day program hosted 8 sessions with 24 real-world cases with major current topics.

**5  
companies**

5 companies conducted their symposiums, showcasing their cutting-edge research and latest innovations.

# CONFERENCE OVERVIEW

The 16<sup>th</sup> Annual Case-Based Approach to Controversies in Cardiovascular Diseases reaffirmed its position as a leading scientific platform in the Middle East. The conference delivered an evidence-based, case-driven program designed to advance multidisciplinary collaboration and enhance clinical decision-making in cardiovascular care.

**300+**

▶ Total Delegates

**2 days**

▶ Conference Duration: 2 Days  
Participant Profile: Multidisciplinary cardiovascular healthcare professionals

**24**

▶ Real-World Case Discussions

**30+**

▶ International, regional, and national experts

### Specialties Represented:

- Cardiologists & Interventional Cardiologists
- Cardiovascular & Cardiothoracic Surgeons
- Electrophysiologists & Echocardiography Specialists
- Vascular Medicine & Cardiovascular Rehabilitation Specialists
- Trauma Surgeons & Allied Health Professionals

## Scientific Program Overview

- Real-World Case Discussions: 24
- Speakers: 30+ international, regional, and national experts
- Format: Case-based learning with interactive expert discussion

The program addressed contemporary advances, clinical controversies, and the appropriateness of emerging innovations and clinical trials in cardiovascular medicine and surgery.

### Academic & Clinical Impact

The conference strengthened participants' clinical competencies through evidence-based discussions and practical case analyses. Delegates gained insights enabling the integration of current research findings and innovative therapeutic approaches into clinical practice, supporting improved patient outcomes.

### Industry Engagement

An accompanying exhibition featured innovative technologies, products, and services presented by leading industry partners and sponsors, enhancing professional engagement and knowledge exchange.

### Acknowledgment

The Organizing Committee expresses its sincere appreciation to all partners and sponsors whose continued support contributed significantly to the success and scientific excellence of the conference. Their collaboration remains essential to the continued growth and future editions of this distinguished meeting.

## VENUE AND ACCOMMODATION

The event was hosted at the Creekside Hotel Dubai - an Accor Hotel, in Deira, Dubai. The scientific program was held at the Night Ballroom while the industry exhibition at the Day Ballroom.

At the crossroads of old and new Dubai, The Creekside Hotel, Dubai - an Accor Hotel is a contemporary destination where cultures meet. Offering seamless city connectivity, the hotel is located 5 minutes from Dubai International Airport (DXB) and welcomes delegates with a curated art collection and a warm atmosphere.

# COMMITTEE AND FACULTY

## Course Directors

**Walid Saliba, MD**  
Director, Atrial fibrillation Center  
Director, Electrophysiology Lab  
Cardiac Pacing and Electrophysiology  
Heart and Vascular Institute  
Cleveland Clinic Foundation, Ohio, USA

**Joseph Maalouf, MD**  
Professor of Medicine  
Chair of the Division of Cardiology  
Sheikh Shakhbout Medical City  
Abu Dhabi, United Arab Emirates

**Wael Al Mahmeed, MD**  
Consultant Cardiologist, Staff Physician  
in the Heart and Vascular Institute at  
Cleveland Clinic Abu Dhabi  
Abu Dhabi, United Arab Emirates

Cleveland Clinic Abu Dhabi  
United Arab Emirates

# ACCREDITATION

This Conference was accredited with **14 CPD** Credit Points from the **Dubai Health Authority**

## OBJECTIVES & EDUCATIONAL OUTCOMES

- **Integrate recent advances** in cardiovascular medicine into effective disease prevention and management strategies.
- **Identify cardiovascular risk factors** in patients without known coronary artery disease and apply risk stratification tools to predict future coronary events.
- **Understand optimal medical therapy** and therapeutic targets for the management of cardiovascular diseases.

- **Evaluate current developments** in the assessment and management of heart failure, valvular heart disease, and coronary artery disease.
- **Recognize emerging transcatheter and surgical techniques** in the management of cardiovascular conditions, including valvular heart disease, coronary artery disease, and cardiomyopathies.
- **Critically appraise contemporary management strategies** in the diagnosis and treatment of infective endocarditis.
- **Apply current cardiovascular treatment algorithms** in daily clinical practice and effectively navigate complex and challenging cardiovascular cases.

# SCIENTIFIC PROGRAM OVERVIEW

The 16<sup>th</sup> CVUAE was scheduled for two days where renowned faculty members from the United States and Middle East regions came together and successfully concluded the program. The conference hosted a total of 8 sessions and 24 scientific lectures with panel discussions.

The major session topics covered were the following:

**Session I:**  
Coronary Artery Disease

**Session II:**  
Electrophysiology (EP)

**Session III:**  
Prevention and Management of Cardiovascular Disease

**Session IV:**  
Test Your Skills: EKG

**Session V:**  
Valve and Structural

**Session VI:**  
Heart Failure and Critical Care Cardiology

**Session VII:**  
Management of Special CV Populations

**Session VIII:**  
Test Your Skill: Imaging Workshop CT and Echo

## Symposiums:

Five leading companies hosted their own symposiums, showcasing their latest innovations and industry insights. Each symposium provided valuable perspectives and fostered engaging discussions among attendees.

**AMGEN**

**Amgen:**  
Lowest is Best: Intensive LDL-C Reduction and Cardiovascular Outcomes

**Bayer:**  
Finerenone Role in Optimizing CKM Patients Care

**cleerly**

**Cleerly:**  
A World without Heart Attacks

**NOVARTIS** | Reimagining Medicine

**Novartis:**  
Advancing the Frontiers in CV Risk Management

**Novo Nordisk:**  
Cardiovascular Diseases in Patients with Obesity

# SCIENTIFIC AGENDA

Day 1 - Saturday

7 February 2026

08:00 - 08:20 Registration and Welcome Coffee

08:20 - 08:30 Welcome and Opening Remarks

Wael Al Mahmeed, Joseph Maalouf, Walid Saliba, Juwaira Tahir Al Ali

08:30 - 10:00 Session I: CAD

Case Presenter

**Discussants:** Faisal Bakaeen, Leslie Cho, Wael Al Mahmeed, Ronney Shantouf, Omar Abou Ezzeddine, Juwairia Tahir Alali

08:30 - 08:50 Middle Aged Lady with Chest Pain

Venu Menon

08:50 - 09:10 Middle Aged Lady on Chemotherapy

Venu Menon

09:10 - 09:30 Fever 2 weeks post MI

Wael Jaber

09:30 - 09:50 Not all Coronary Disease is Atherosclerotic

Naser Ammash

10:00 - 10:30 Non-CME Corporate Symposium

 AMGEN

Lowest Is Best: Intensive LDL-C Reduction and Cardiovascular Outcomes

Ronney Shantouf

10:30 - 10:45 Coffee Break

10:45 - 11:15 Non-CME Corporate Symposium

 NOVARTIS | Reimagining Medicine

Advancing the Frontiers in CV Risk Management

Kausik Ray

Chairman: Ronney Shantouf

11:15 - 12:45 Session II: Electrophysiology

Expert Panel: Jack Rickard

**Discussants:** Mohammad Al Jaabari, Bernard Abi Saleh, Fereidoon Shafiei, Wael Jaber, Marc Gillinov

11:15 - 11:35 Case of tricuspid valve regurgitation and pacemaker

Walid Saliba

11:35 - 11:55 Case of atrial fibrillation requesting LAAC

Walid Saliba

11:55 - 12:15 A case of persistent leak through laaclosure

Oussama Wazni

12:15 - 12:45 Case 4: 18 year old with syncope

Oussama Wazni

12:45 - 13:45 Lunch Break

13:45 - 15:00 Session III: Prevention and Management of CV Disease

**Discussants:** Nooshin Bazargani, Hani Sabbour, Walid Ezzat, Farhana Bin Lootah, Mohamed Salah

13:45 - 14:15 Lp(a) Primary and Secondary prevention

Leslie Cho

14:15 - 14:45 How do I use Polygenic risk score

Leslie Cho

14:45 - 15:15 Hormone therapy - Case of Husband and Wife

Leslie Cho

15:15 - 15:45 Non-CME Corporate Symposium

 novo nordisk®

Cardiovascular Diseases in Patients with Obesity

Manyoo Agarwal

15:45 - 16:00 Coffee Break

16:00 - 16:45 Session IV: Test Your Skills: EKG

Test Your Skills: EKG

Venu Menon

**Discussants:** Oussama Wazni, Joseph Maalouf, Manyoo Agarwal

Walid Saliba

End of Day 1

08:00 - 08:20 Registration and Welcome Coffee

08:30 - 10:00 Session V: Valve and Structural

Case Presenter

**Discussants:** Venu Menon, Andrew Higgins, Joseph Maalouf, Marc Gillinov, Ahmed Bafadel, Walid Saliba, Mahmoud Traina

08:30 - 09:00 82-year-old Male with Severe Aortic Stenosis and LM disease to undergo TAVR Ronney Shantouf

09:00 - 09:30 58 YO Male with a typical chest pains and Elevated Troponin Joseph Maalouf

09:30 - 10:00 Woman with arrhythmic mitral valve prolapse Marc Gillinov

10:00 - 10:30 Non-CME Corporate Symposium

Finerenone Role in Optimizing CKM Patients Care  
**Moderator: Wael Al Mahmeed**

Waleed Nafee Farag

10:30 - 10:45 Coffee Break

10:45 - 12:25 Session VI: Heart Failure and Critical Care Cardiology (Andrew Higgins)

**Expert Panel:** Noosheen Bazargani

**Discussants:** Venu Menon, Firas Al Badarin, Nadya Al Matrooshi, Hadi Skouri

10:45 - 11:05 62-year-old Male with Exertional Dyspnea & Syncope Omar Abou Ezzeddine

11:05 - 11:30 65 year old man with exercise intolerance and LVH Andrew Higgins

11:30 - 11:55 66-year-old Female with Exertional Intolerance, Fatigue and Weight Loss Omar Abou Ezzeddine

11:55 - 12:25 72-year-old Male with Exertional Dyspnea and Fatigue Omar Abou Ezzeddine

12:25 - 13:30 Lunch Break

13:30 - 15:30 Session VII: Management of Special CV Populations

Focus Management of Acute valvular emergencies and mechanical support OR timing

**Discussants:** Firas Bader, Venu Menon, Dima Quraini, Wael Jaber

13:30 - 14:00 54 year old woman with edema and dyspnea Andrew Higgins

14:00 - 14:30 37 year old woman with chest pain and dyspnea Andrew Higgins

14:30 - 15:00 59-year-old Female with dyspnea Omar Abou Ezzeddine

15:00 - 15:30 Local experience with LVADs Riyadh Tarazi

15:30 - 16:00 Non-CME Corporate Symposium

A World Without Heart Attacks

James K. Min  
Firas Al Badarin

16:00 - 16:15 Coffee Break

16:15 - 17:15 Session VIII: Test Your Skill: Imaging Workshop CT and Echo

# CONFERENCE EVALUATION

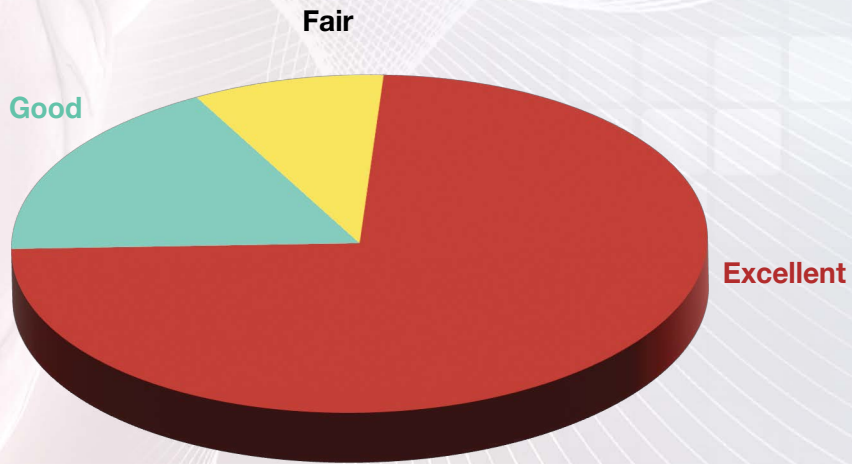

How was the content of the conference?

- Excellent
- Good
- Fair

Overall, how would you rate the sessions?

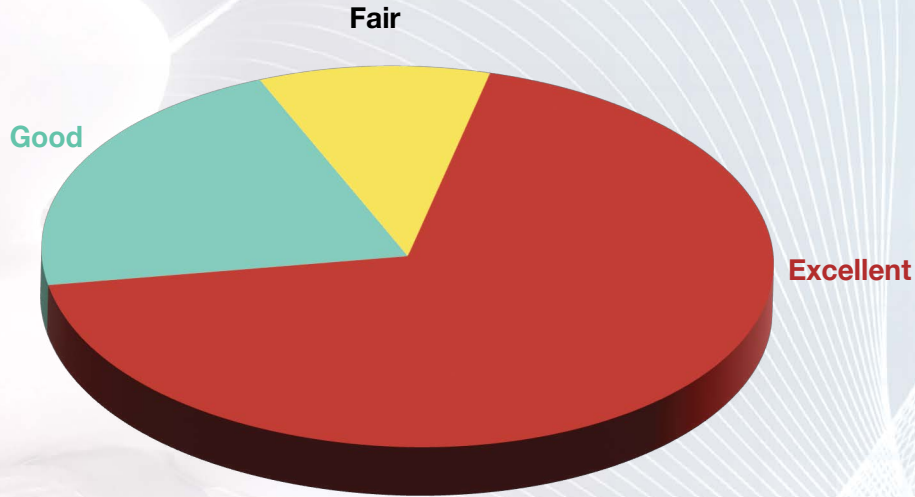

- Excellent
- Good
- Fair

Please rate each of the following for the program:

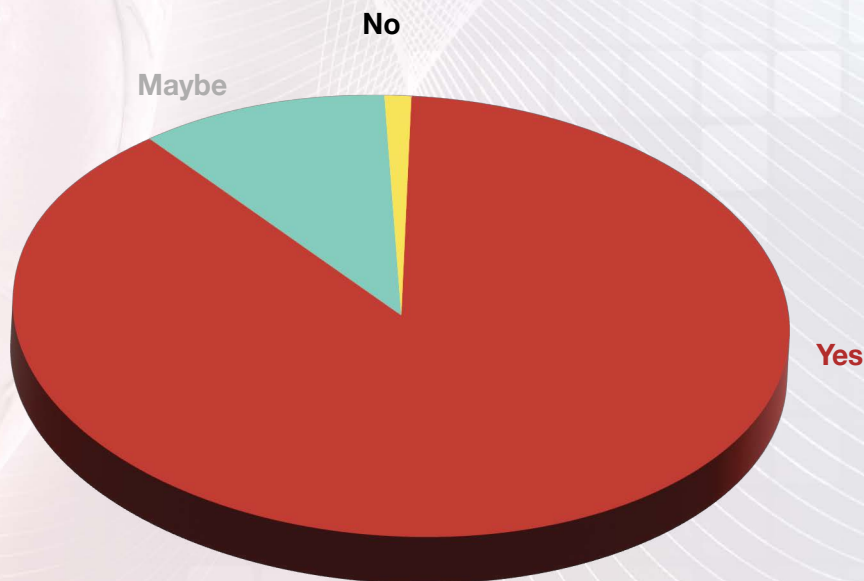

1. Organization of content
2. Relevance of content
3. Opportunity to ask questions

- Excellent
- Good
- Fair

Would you like to attend the program next year on 20 & 21 March, 2027?

- Yes
- Maybe
- No

## DELEGATES FEEDBACK

- Always an excellent environment and contents! Congrats!!
  - best conference
  - Excellent Agenda and organization
  - Impressive sessions
- 
- It's the best conference of the year
  - Need more ECG SESSIONS
  - Overall its was excellent confidence

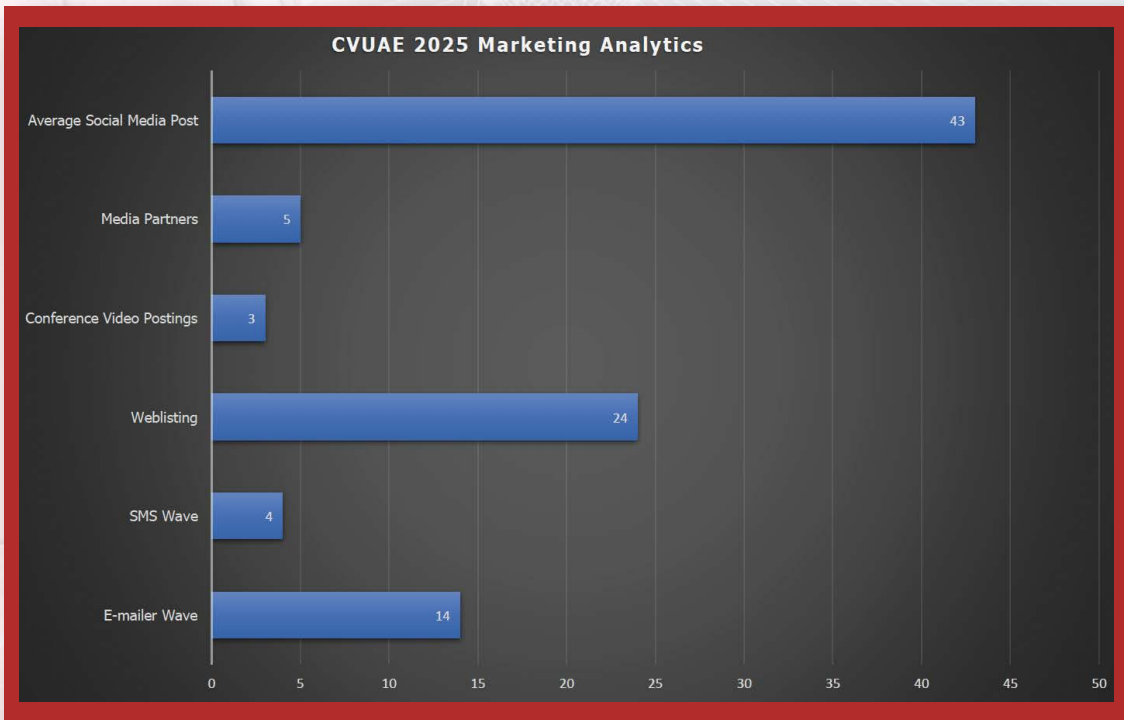

## What type of cases would you like to see in future program?

- Acute coronary syndrome
- Acute heart failure
- Advanced CHF cases
- AI and echo
- AI in cardiology
- Amyloid cardiopathy
- Aortic stenosis
- Appropriately managed ones
- CAD patient and arrhythmia patient
- Cardiomyopathy in systemic diseases, heart failure in patient with advance kidney disease,
- Cardio-oncology
- Complex coronary artery disease
- Complex percutaneous valve intervention - TCMVR, TCTVR
- Controversial structural heart disease cases
- Coronary artery disease, heart failure
- CT angiography
- Heart failure and arrhythmia

- Live cases in structure heart
- Maybe cases with complications, heart transplant, etc
- Mix of coronary, myocarditis, CMP, heart failure (specially HFPEF) which form the bulk of daily work
- Myocarditis and pericarditis
- Noninvasive multimodality imaging cases
- Noninvasive IHD work up
- Pacing and Arrhythmology
- Prevention of sudden cardiac death
- Pulmonary hypertension and shock
- Related to complex coronary interventions
- Surgical based cases that involve diagnostic measures and surgical intervention
- Syncope and Sudden death
- Tachycardia induced cardiomyopathy
- Valvular cases and cardiac imaging

**Event Details**  
 The 16th Annual Case-Based Approach to Controversies in Cardiovascular Diseases brings together global experts for two days of immersive, case-driven learning focused on the latest challenges, advances, and clinical decision-making in cardiovascular care.

**CVUAE 2026**, co-sponsored by the Cleveland Clinic and Mayo Clinic, offers an in-depth review of current state-of-the-art practices in cardiovascular medicine. All sessions are presented in a real-world, case-based format designed to encourage active participation, interactive discussion, and meaningful debate between faculty and attendees.

This program is designed for all healthcare professionals involved in the management of cardiovascular diseases, including cardiologists, cardiac surgeons, residents, fellows, and nurses.

**Summary:**

- Essentials of Coronary Artery Disease
- Structural Heart Disease
- Heart Failure and Critical Care Cardiology
- Contemporary Management of AF
- Test Your Skills with EKG and Imaging Cases

**Learning Objectives:**

- Define and describe current strategies for the prevention and management of hyperlipidemia, hypertension, and cardiovascular protection with Type 2 diabetes.
- Critically assess practical applications for the management of ischemic disease and degenerative mitral regurgitation (MR), including the role of guideline-directed medical therapy (GDMT) and surgical techniques for MR.
- Analyze the clinical applications and treatments for the management of aortic valve disease.
- Describe management strategies for new-onset AFib, including interventional options for stroke risk.
- Apply current guideline recommendations for the treatment of heart failure and cardiomyopathy, including the diagnosis and management of hypertrophic cardiomyopathy and amyloid.
- Examine management strategies for simple and complex CAD.
